

# Black Music & The Black Experience, Part 2

*Presented by Dorian Brown, Associate Professor,  
St. Louis Community College*

Dorian is a native of East St. Louis. His mother was a professional dancer, and from a young age he gravitated toward hip hop music and history books. He says of his transition into teaching history that he wouldn't have it any other way – teaching and history are his two passions. Back by popular demand, Dorian returns to the Shepherd's Center at Harrison Avenue to continue the conversation about Black Music and the Black Experience.
